Wedge Wire Screens

AEG Wedge Wire Screens attribute great strength, long service life and a very high level of adaptability for high-efficiency liquid/solid separation.

Custom Designed and Engineered

Each project is designed to ensure complete satisfaction. We provide guidance and support from project conception to completion.

Longer lasting

Featuring the 'V' shape, the screens are extremely durable and have high resistance to abrasion, corrosion and impact damage.

Lower maintenance

The rugged construction and high quality of the materials produce a product that lasts longer and requires less maintenance.

Less costly

Superior operating efficiency, reduced maintenance needs, and extended service life combine to decrease the cost of AEG screens to plant operators.

Features and Benefits

- Higher Capacity
- Long Service Life
- Reduced maintenance
- Good Self-Cleaning Properties
- Non-Plugging Slot Design
- Strong construction
